

Recent progress in distance-regular graphs

Jack Koolen

University of Science and Technology of China

koolen@ustc.edu.cn

In this talk I report on recent progress in distance-regular graphs. This talk is based on joint work with Meng Yue Cao (Beijing Normal University), Ying Ying Tan (Anhui Jianzhu University), Xiaoye Liang (Anhui University), Jongyook Park (Kyungpook National university), Gary Greaves (Nanyang Technological University), Qianqian Yang (University of Science and Technology of China), Zhi Qiao (Sichuan Normal University)
